

This chart shows the Diagram Numbers, for Level Crossings, from successive editions of Traffic Signs Regulations and General Directions.
It also shows the comparative numbers for the current Welsh and Northern Ireland Regulations.

No responsibility is accepted errors or omissions. Users should refer to the appropriate edition of the Traffic Signs Regulations and General Directions to ensure they have the correct information.

Users should seek legal advice where necessary.

Where signs are not shown in the Regulations, a Traffic Signs Authorisation is required from the respective authorising body in England (DfT), Wales (Welsh Assembly), Scotland (Scottish Executive) and Northern Ireland (Department for Regional Development. There are no Welsh equivalent PC(SB)Regs and thus all dual language signs need authorisation at private crossings in Wales.
